CAREER OBJECTIVE

Passionate Front-End Developer with a strong foundation in modern web technologies, including HTML5, CSS3, and JavaScript(ES6). Seeking a Front-End Developer role where I can collaborate with cross-functional teams to create responsive web design and highly functional web applications that engage users and drive business growth.

WORK EXPERIENCE

UI Developer

TA Digital

📅 February 2023 - September 2023

📍 Hyderabad, India

- Designed and developed responsive and visually appealing user interfaces for web applications using HTML, CSS, and JavaScript
- Implemented UI components and interactions using React.js, ensuring cross-browser compatibility and mobile responsiveness.
- Worked on CSS Framework like, SCSS and JS libraries like React.
- Collaborated closely with UX designers to translate wireframes and mockups into pixel-perfect UI implementations.
- Wrote clean and maintainable code, adhering to coding standards and best practices.
- Optimized UI performance, reducing page load times by 30% through code optimizations and image compression.
- Implemented ARIA roles and attributes to improve screen reader compatibility.
- Conducted regular accessibility audits and resolved issues to maintain a high level of accessibility.
- Worked in Content Management System like AEM to make websites more dynamic.

Associate Technical Writer

CDK Global

📅 October 2022 - February 2023

📍 Hyderabad, IN

- Analyzed developments in field to update instruction literature.
- Proved successful working within tight deadlines and fast-paced environment.
- Writing and proof reading different technical documents.
- Working with product designers and engineers to create easy-to-understand hot-to manuals.
